

Hello students and thank you for your interest in the “Understanding Easy News” short course. News about politics and economy can be very difficult to understand but there are news stories that beginners and upper-level beginners can learn to understand. This is the focus for this course. Students joining this course will listen to a variety of local CNN news stories that center of culture, fashion and every day activities. Classes will encourage students to do the following:

1. Understand natural English
2. Express what they learned to their classmates, and
3. Join in discussion about the topic

Every class will focus on 2-3 news stories that will increase in level over the course. By the end of the course students will have improved their listening skills to participate in intermediate level conversations and understand more of what they hear on the television, radio and Internet.
