

Class name: Intermediate - Communicating Your Ideas Mon.

(face-to-face once a month & online* /18:30-20:00)

Instructor: Ms. Claire Summers

This class is aimed at intermediate level students who would like to use their English to discuss important world issues and ideas.

The course is based on the textbook '21st Century Communication'. This year we will use Book Two which covers fascinating topics such as conservation, innovation, fashion, robotics, philanthropy, and psychology. Even though the topics may sound difficult, the textbook has adapted everything for intermediate level students. This means there will be extra help with new vocabulary and plenty of opportunities to practise speaking and listening skills.

You can find a description of the textbook and a sample unit by following these links:

The book uses spectacular National Geographic photographs, structured listening exercises and short talks from engaging presenters. This combination helps students practice critical thinking skills and learn successful strategies for communicating ideas.

Although this is basically an online course, we are planning to meet face to face in the classroom, once per month. My hope is that, through this course, you will enjoy using English to learn about some unusual topics in a friendly and relaxed environment both online and in the classroom.

Looking forward to seeing you soon!

Claire
