

Class name: 中級月 Intermediate Mon. -Communicating Your Ideas

(In person once a month & Online /18:30-20:00)

Instructor: Ms. Claire Summers

This class is aimed at intermediate level students who would like to use their English to discuss important world issues and ideas.

The course is based on the textbook '**Reflect Listening and Speaking Level 4**'. This book covers fascinating topics such as sociology, anthropology, ecology, science fiction, business and psychology. Even though the topics may sound difficult, the textbook has adapted everything for intermediate level participants. This means there will be extra help with new vocabulary and plenty of opportunities to improve your speaking and listening skills.

You can find a description of the textbook and a sample unit by following this link:

The book uses spectacular National Geographic photographs, structured listening exercises and short talks from engaging presenters. This combination helps participants develop critical thinking skills and learn successful strategies for communicating ideas.

Although this is basically an online course, we are planning to meet face to face in the classroom, once per month. My hope is that, through this course, you will enjoy using English to learn about some unusual topics in a friendly and relaxed environment.

Looking forward to seeing you soon!

Claire
